

The main EUPA building was built in 1960. It was officially inaugurated in 1973.

Nowadays a new building has been built and some facilities have been reformed.

The current situation of the school is:

There are three buildings to develop the different tasks. They have 5.152 m2.

Störr building (A). It's mainly used for teaching, laboratories and some cultural activities. It has 3.340 m2, three floors and a basement.

Casiano de Prado building (B). It has two floors. It was used to host the UNED services. It has 756 m2. Now there are some classrooms, offices and laboratories. It is the Headquarters OF Tuna.

E'lhuyar building (C) 560 m2. There are:

Cells of The Royal Forced Jail.

Historical and Mining Museum "Francisco Pablo Holgado".

7 Offices

3 Classrooms.

1 Computer room for teachers.

4 Stores.

Andres M. del Rio building (Workshops). It has 500m² and there are the laboratories and a computer room for students.

LABORATORIES.

Electricity and Electronics.

Chemistry.

Earth Sciences.

Topography.

Languages.

Applied Physics.

Metrology.
