WELCOME TO THE UNIVERSITY OF CASTILLA-LA MANCHA

Founded in 1985, our University now offers 47 bachelor's degree programmes and 35 official master's degrees programmes, all of which are in accordance with the standards of the European Higher Education Area (EHEA). Moreover, the UCLM proffers a wide selection of post-graduate courses and 18 PhD programmes.

Our institution, founded 25 years ago, has consolidated itself as a top university within the Spanish Tertiary Education System. Internationally, the UCLM holds cooperation agreements and relations with approximately 715 world- wide academic centers and institutions. This constitutes the perfect frame to let our students and professors go abroad and permit international students and professors to come to UCLM. According to the 2015-2016 statistics, around 700 worldwide students arrived at the UCLM to start or continue their education. Furthermore, the UCLM also offers Spanish language courses to international students and visitors, which have been attended by more than 2,000 people in the last three years.

Our institution is pleased to have these international programmes for non-native speakers. Moreover, from the UCLM we are also proud of being able to have the confidence of worldwide professors and students, who each year select the UCLM for different purposes

At your disposition is a magnificent University and a motivated and experienced personnel that will help you to achieve your personal and academic objectives. You will be more than welcome at the University of Castilla-La Mancha. We will be waiting for you to share some excellent and moving experiences.

Study in English

As an international institution that receives worldwide students and has international accords with more than 700 international institutions and organizations, the University of Castilla-La Mancha is clearly committed with its internationalization. In order to keep and increase this process, the UCLM has been working sternly on an internationalization strategy that will permit it to improve and consolidate the UCLM's position at the international tertiary education stage.

The aforementioned internationalization strategy is composed of numerous lines and attributes such as the “Study Abroad Programme”, the Spanish courses for foreigners, the promotion of the UCLM's international initiatives, etc. Obviously, amongst these components there is the teaching in English language.

From the UCLM, we comprehend perfectly the importance that Education in English has for our international status and reputation. Whereupon, we have started to develop an ambitious program towards the organization and implementation of imparting knowledge in English. So far, we have been able to reach a vast range of subjects taught in English and we are still making a great effort to implement bilingual

bachelors and master's degrees and even bachelors and master's degrees that are exclusively taught in English. In addition, the UCLM is developing a catalogue of subjects of the official degrees assigned as “**English Friendly**”, with the intention to facilitate the international students the class materials in English language.

The “English Friendly” involve the voluntary commitment of the professorship to improve the monitoring of the classes by the international students. As well as, it promotes the internationalization for the Spanish students with supporting documents for the study of the UCLM subjects in English.

All mentioned include the possibility for the international students to perform progress test and examinations in addition to attend a tutoring in English, if they choose it.

In short, at the UCLM, international students will be capable of studying numerous disciplines of diverse fields of knowledge in English. Meanwhile from the University of Castilla-La Mancha, we will keep working untiringly to enlarge and ameliorate our educative proposal in English.

International relations

The International Relations Office (ORI) and the Vice-Chancellor for Internationalization and Lifelong Learning handle all international issues for the University of Castilla-La Mancha (UCLM). In this way, they are committed to facilitating relations with other international institutions of higher education and fostering international study and teaching opportunities among the university community.

Furthermore, they work to establish different international exchange programs for students, researchers, professors, and university administrative staff. In the case of students, such programs give them the opportunity to take some academic credits of their degrees in those foreign academic institutions with which University of Castilla-La Mancha has signed an exchange agreement

CAMPUS OF
CIUDAD REAL

Ciudad Real is the most important site for the running of the University of Castilla-La Mancha. In this city is placed the Provost's Office and the most relevant decisions concerning the administration and management of the UCLM are decided in this venue.

Naturally, the vital centre of the UCLM has its own wonders. After all, Ciudad Real is the land of Don Quixote and it is surrounded by astonishing natural landscapes, some of which are included in the National Park list.

With regard to education, the Campus of Ciudad Real is, naturally, the most relevant campus within the University of Castilla-La Mancha. With around 8,000 students in accordance with the 2015 statistics, it offers a complete range of Bachelor's Degrees, Master's Degrees and other post-graduate studies for the best undergraduate and graduate education.

The Campus of Ciudad Real is divided into two venues: the main venue is, located in the city of Ciudad Real. A second venue is located in Almadén, a small town 100 kilometres away from Ciudad Real.

Taking advantage of the mercury mining tradition of Almadén, the UCLM decided to place the Polytechnic School, here where students can study the Bachelor's Degrees in Mining Engineering and Industrial Engineering. In addition, Almadén boasts the world's largest mercury mine, and together with Idrija, it is the only place that holds the Heritage of Mercury awarded by UNESCO back in 2012.
